

Welcome to the e-tour of Giżycko. Today we will visit the most famous tourist attraction.

The first tourist attraction will be Hotel St Bruno. This place is the most famous hotel in the entire Giżycko commune, where famous personalities often stay. The hotel was built on a previously built Teutonic castle.

Second tourist

attraction in Giżycko there is a great port where Yachts gather often and Organize a party. If you want, you can rent a boat. You can also take part in the trip: three lakes, three canals in one hour.

The third tourist

attraction is the passage in Giżycko with the lot of resaurant. There is also a bowling alley and fountains in the middle of the passage. Unluckily the left side of the building is empty because is too expensive and nobody want to buy it.

The fourth attraction is the Water Tower, which is one of the highest viewpoints in Giżycko, from which you can see almost the entire city. Inside the tower there are several floors, and each of them is such a small museum. Upstairs is a cafe and a balcony from which you can get out.

The swing bridge in Giżycko is one of the oldest Bridges. This is an attraction because it is rotated by hand, not mechanically. And is still worked.

Boyen

Fortress is a places of defense during the war. It is surrounded by a wall and shows how huge the fortress must be and how much time it took to built. The lenght of the wal lis 2 kilometers.

Thanks for watching maybe see you later.
